GURNEY'S FALL 1960 SALE

Here's our new 1960 Fall Sales Catalog and we certainly hope you enjoy it. You can depend that the stock can be safely fall planted in your locality. Years of experience has taught us that there are many things that should not be fall planted as far as you north-central folks are concerned. We refer here to such things as deciduous shade and fruit trees, shrubs, roses and the likes. Too much chance of losing them the first winter and we don't want you to take that chance. These will all be available next spring. Hope you find what you are looking for and we welcome the opportunity of serving you.

None Finer Than Gurney's LAWN SEED

FALL SEED for a WEED-FREE Lawn

Our Blue Grass is absolutely "tops" in quality—northern-grown seed.

By seeding in August or September you eliminate a good share of your weeds. You'll have an established lawn by the time the snow flies. The weed crop in the spring won't be able to take over.

Always the Best For Less at Gurney's. You cannot buy finer grass seed than we are offering here at Gurney's. All of it is fresh, new crop seed that has been carefully tested to assure you of a beautiful lawn. It is good heavy seed and that means top quality, high germinating seed. You get the best—for less—when you order from Gurney's.

Seeding Before September 10th Assures Best Results. This gives the new grass a chance to become established before winter.

Gurney's Famous GREEN CARPET MIXTURE

New PARK KENTUCKY BLUE

Certified Blue Tag

210—This new Park variety comes up quicker and grows more vigorously than any other blue grass. Proved superior in stand, growth, density and quality of turf. Rapid growth helps fight weeds and will give you a "showy lawn" of which you can be justly proud. This fine New Park Kentucky Blue Grass was developed and introduced by the Agronomy department of the University of Minnesota. High resistance to disease and freedom from rust assures you of a beautiful green lawn all season long. Order early, our supply is limited. Sow 1 lb. to 250 square ft. 1 lb. 1.98; 3 lbs. 5.75; 5 lbs. 9.45; 10 lbs. 18.50, postpaid

It's Easy to Make a Luxuriant Gurney Lawn

1 Preparation of the ground is important. First, plow or spade deeply. Level off the area to be planted and rake to remove sticks, trash, stones, or lumps.

2 Roll the lawn thoroughly. This allows you to plant the seed more evenly, plus providing a firmer seed bed.

3 Sow the seed, generally using one lb. of lawn seed to every 225 square feet.

4 Rake carefully to work the seed slightly into the soil.

Pure Kentucky Blue Grass

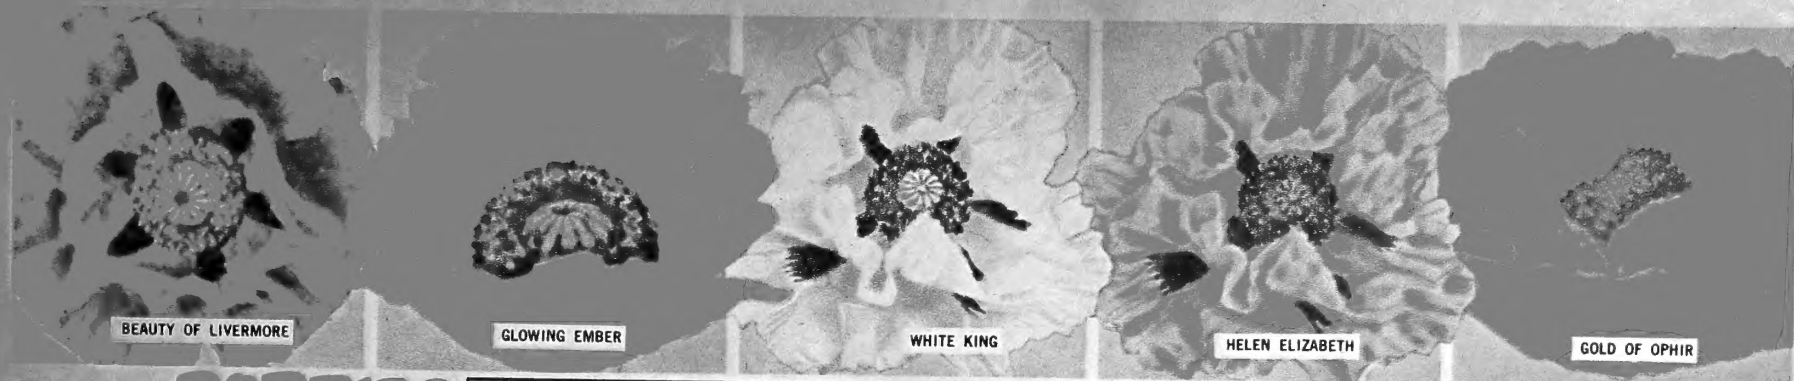

79—We have the true northern-grown, northern-harvested Kentucky Blue Grass which is of extreme hardiness. There is no finer seed available anywhere at any price. You will be mighty happy with Gurney's Pure Kentucky Blue Grass. It's the most popular variety in America.

Heavy seed means weed-free seed. Start your new lawn early this fall and give it plenty of moisture. Kentucky Blue Grass is a slow starter, but once it is established it will last for years.

Use 1 pound of seed for 225 square ft., rolled in. Be sure of the seed you want—when you want it—order early. 1 lb. 1.15; 3 lbs. 2.95; 5 lbs. 4.65; 10 lbs. 8.95, postpaid.

5 Again roll lawn, using a roller or packer. This is important. Keep it well watered (each day) for the next 2 or 3 weeks. Moisture is necessary for proper germination.
